L051 DSCF for Parcel Select / Market-Dominant Parcels

L051 provides service areas and locations of destination sectional center facilities (DSCF) where Parcel Select, Marketing, Periodical, and Bound Printed Matter parcels can be inducted.

Subject to the standards for the rate claimed, pieces entered at listed DSCF locations must be dropped in sacks or pallets and at critical entry time specific to that location to receive same day or next day service. For more information on prices, content standards, and eligibility please see section 250 'Commercial Mail Parcel Select' in the Domestic Mail Manual (DMM). Machinable preparation and non-machinable or irregular preparation must follow DMM standards. If other Package Service products are combined under DMM section 705 'Advanced Preparation and Special Postage Payment Systems', the service standards will follow the lowest mail class.
